Objective

Aspiring backend web developer with hands-on experience in building dynamic web applications using Node.js, Express.js, and EJS. Seeking an internship opportunity to enhance skills in RESTful API development, server-side logic, and real-world backend systems.

Skills

- HTML5, CSS3, JavaScript (ES6)
- Node.js, Express.js
- REST APIs, EJS (Embedded JavaScript)
- File System Module (fs)
- Git & GitHub (basic)
- Route-based architecture in Express

Projects

SafarNama - Travel Booking Web App

Technologies: EJS, Node.js, Express.js, REST APIs

- Built a full travel web application from scratch
- Created modular routes using Express Router
- Designed dynamic pages using EJS templating
- Implemented contact forms, booking logic, and multi-step UI components
- Practiced file handling using the fs module for form submissions
